

# KAUFFMAN'S

## Equine Gold™

**A horse's digestive system needs to remain strong, active and efficient to provide the nutrients they need, but digestive stress can cause disruption, leading to an irritable, lethargic horse.**

**Equine Gold™ is formulated to provide a balance of digestive enzymes and probiotics to support and maintain your equine's hindgut health and GI tract so digestive challenges do not stand in their way.**

**Equine Gold Maintains Balance of Healthy Microflora During Dietary Changes, Antibiotic Treatment, De-Worming, and Digestive Stress**

KAUFFMAN'S® Equine Gold is a premium blend designed to provide a complete balance of digestive enzymes and probiotics that are palatable and will keep your equines' digestive system healthy.

The fermentation process in the hindgut creates and drives energy, but too much oxygen in the digestive tract blocks fiber fermentation. This can lead to constipation, colic and other health problems.

Equine Gold contains *Saccharomyces Cerevisiae* yeast, direct-fed microorganisms, and digestive enzymes.

- Active dry cell yeast and yeast culture have been shown to support enhanced digestion, specifically the digestion of key macro- and micro- minerals and scavenges oxygen in the digestive tract for more complete anaerobic fermentation of fiber
- Digestive enzymes support the digestive tract and help with the digestion of complex carbohydrates, cellulose, hemicellulose, pectin, and beta-glucan found in equine feed
- Beneficial bacteria (probiotic) have been shown to promote optimal digestive health and help maintain a healthy immune system
- Micro-encapsulated bacteria provide optimal storage longevity from extreme temperatures, humidity and pH, helping to ensure viability when feeding

Add Equine Gold to your horse's feeding routine to keep their digestive systems healthy, balanced, and consistent, everyday, so they are always feeling ready to perform.

# Equine Gold™

Guaranteed Minimum Analysis:	
Total Microbial Count : 807 Billion Colony Forming Units per Pound	
(Saccharomyces cerevisiae, Lactobacillus acidophilus, Enterococcus faecium, Bifidobacterium thermophilum, Bifidobacterium longum, Bacillus subtilis)	
Enzyme Activity	
Amylase (A. oryzae)	180,000 µg starch hydrolyzed/min/lb
Protease (A. oryzae)	24,000 µg proteins hydrolyzed/min/lb
Hemicellulase (A. niger)	21,625 µg hemicellulose broken down/min/lb
Phytase (S. pombe)	1,200 µg phytate hydrolyzed/min/lb
Cellulase (A. niger)	9,600 µg cellulose broken down/min/lb
Lipase (A. oryzae)	7,200 µg triglycerides hydrolyzed/min/lb
Pectinase (A. niger)	4,800 µg pectin broken down/min/lb
B-Glucanase (A. niger)	2,100 µg B-glucans hydrolyzed/min/lb

**Ingredients:** Calcium Carbonate, Yeast Culture, Dried Molasses, Corn Distillers Dried Grains with Solubles, Active Dry Yeast, Dried Kelp, Yucca schidigera Extract, Dried Aspergillus niger Fermentation Extract, Dried Aspergillus oryzae Fermentation Extract, Dried Lactobacillus acidophilus Fermentation Product, Dried Enterococcus faecium Fermentation Product, Dried Bifidobacterium thermophilum Fermentation Product, Dried Bifidobacterium longum Fermentation Product, Dextrose, Biotin, Dried Schizosaccharomyces pombe Fermentation Soluble, Dried Bacillus subtilis Fermentation Product.

**Directions for Use:** For general purpose equine supplementation, feed at the rate of one-half to two ounces per day in relation to work-load and stress. Dose may be safely doubled during times of extreme stress. Enclosed scoop holds one ounce when full.

**Equine Gold is available in three convenient sizes:**

- 4 lb pail ( Approximately 64 day supply for one horse)
- 10 lb pail ( Approximately 80 day supply for two horses)
- 30 lb pail (Approximately 120 day supply for four horses)

**Recommended Use Areas:**

- Digestive stress
- Dietary changes
- De-worming
- Poor hindgut health
- Promote optimal digestive health
