

KAUFFMAN'S

Hydromax™

Animals under stress from summer heat, vigorous exercise, training, hard work and physical activity can need support for lost electrolytes!

Hydromax™ is a unique blend of electrolytes and nutrients to replace fluids lost through sweat and support muscle function.

More Than Just an Electrolyte!

KAUFFMAN'S® Hydromax offers a convenient, flexible way to tailor support for hydration levels in your horse to the exertion level, environmental conditions, and stress level they are experiencing.

- Hydromax contains proven electrolyte minerals that are formulated to provide the proper amounts and ratios of sodium, potassium and chloride to maintain normal body fluid levels.
- Our electrolyte package has also been combined with whey protein concentrate, glycine, magnesium oxide, calcium acetate, lactose and fenugreek to deliver support for muscle function in today's equine athletes.
- Available in powder form and a convenient easy to administer paste for "on the go" use.

Hydromax Powder can be top dressed over feed or mixed in water to help maintain normal fluid balance in the blood and tissues during or after intense workouts, stressful situations or when environmental conditions merit to help support electrolyte balance and healthy cellular activity.

SOLUTIONS FOR HEALTH & PERFORMANCE

Hydromax™

Guaranteed Minimum Analysis:		1 oz	2 oz
per dose:		1 scoop	2 scoops
Protein, min.	1.75 %	496 mg	992 mg
Calcium, min.	1.70 %	482 mg	964 mg
Magnesium, min.	1.00 %	282 mg	566 mg
Potassium, min.	12.75 %	3,614 mg	7,228 mg
Salt, min.	57.00 %	16, 159 mg	32, 318 mg
Salt, max.	58.00 %	16,443 mg	32,886 mg
Glycine, min.	1.00 %	282 mg	566 mg

Ingredients: Salt, Potassium chloride, Calcium acetate, Lactose, Fenugreek seed, Magnesium oxide, Whey protein concentrate and Glycine.

Suggested Use Directions:

Light-to-Moderate sweating or exercise : 1 Scoop

Heavy-to-Intense sweating or exercise: 2 Scoops

Top dress over feed or mix 1 scoop per minimum 2 quarts clear, fresh water.

Some ingredients may float when mixed with water. The enclosed 20 cc scoop holds 1 ounce when level full. When using Hydromax always allow horses access to fresh water.

Hydromax is available in several convenient sizes:

- 10 lb pail (80 day supply for one horse based off of 2 oz dose)
- 35 lb pail (140 day supply for four horses based off of 2 oz dose)
- 60 g oral dose syringe (2-4 doses)

Recommended Use Areas:

- Excessive sweating
- Environmental changes
- Animals under stress
- Horses in light to intense exercise
- Working and driving horses
