

KAUFFMAN'S

Integri-Hoof™

Building strong, tough hooves and maintaining those hooves requires that your horse receives the nutrient support it needs, every day.

Integri-Hoof's™ proprietary formula is designed to supplement the essential nutrients, in the proper balance, that work together to help support cracked hooves and normal hoof growth.

Biotin is combined with proteinated minerals (Cu, Zn, Co, Mn) in the proper ratios to support normal hoof growth

Lysine and Methionine are essential for protein synthesis along with other amino acids to support growing strong, tough hooves

Contains glycine that is necessary for collagen production that supports development of cartilage, bones and hooves

KAUFFMAN'S® Integri-Hoof was named the #1 recommended hoof supplement by *Horse Journal* in 2009 when compared to 27 other hoof products. And was the only nutritional product to make *Horse Journal's* "Top Ten Products" that year!

Day 1 on Integri-Hoof™

"My horse came in from the pasture with a portion of her hoof missing and I started her on Integri-Hoof in June, 2018. Within 6 months (November, 2018) my horse's hoof had completely grown back and closed up. I had to change her farrier schedule so she would get shod every 5 weeks instead of every 6 weeks because her toe was growing that fast! My farrier was impressed with her rapid and healthy hoof growth. I now use Integri-Hoof all year round!" - KAUFFMAN'S Integri-Hoof Customer

6 months on Integri-Hoof™

Add KAUFFMAN'S Integri-Hoof to your horse's diet today to provide the key nutrients to grow strong, tough hooves fast!
