

# KAUFFMAN'S

# Integri-Hoof™

Building strong, tough hooves and maintaining those hooves requires that your horse receives the nutrient support it needs, every day.

Integri-Hoof's™ proprietary formula is designed to supplement the essential nutrients, in the proper balance, that work together to help support cracked hooves and normal hoof growth.

**KAUFFMAN'S® Integri-Hoof** is the number one recommended hoof supplement by *Horse Journal* and the **only** nutritional product to make *Horse Journal's "Top Ten Products for 2009"*

Splitting and chipping hooves, thin soles, flares, thin/brittle hoof walls and quarter cracks can make it difficult for your horse to handle daily routines and perform their best.

Integri-Hoof is formulated with the precise amounts of key ingredients in the proper ratios, that when used daily, provides support for growing strong, tough hooves that you, your horse and your farrier will appreciate.

- Biotin is combined with a balanced package of proteinated micro-minerals (Cu, Zn, Co, Mn) to provide necessary vitamins and minerals to support normal hoof growth
- Yeast culture has been scientifically shown to assist in the digestion and absorption of macro and micro minerals integral to supporting bone and hoof growth
- The hoof wall is about 90% protein. Lysine and methionine combined with natural amino acids deliver essential amino acids vital for hoof growth
- Methionine and cysteine, sulfur containing amino acids, are necessary to support normal sulfur crosslinks between proteins needed to grow strong, tough hooves
- Glycine, although the smallest amino acid, makes up approximately 35% of collagen. Collagen is necessary for normal growth and development of bones, joints and hooves

Make highly palatable Integri-Hoof your choice to support strong, tough hoof growth, year round!

SOLUTIONS FOR HEALTH & PERFORMANCE

# Integri-Hoof™

**A premium pelleted protein, vitamin, mineral and amino acid supplement for horses**

Guaranteed Minimum Analysis		per 3 oz	Typical Amino Acid Analysis		per 3 oz
Crude Protein, min	40.00%	34 g	Proline	1.20%	1,020 mg
