Vitamin E & Selenium Pellets

Does your horse's diet or activity level require added Vitamin E & Selenium supplementation?

Vitamin E and Selenium Pellets provides your horse with 1,250 mg of Vitamin E per day and 2 mg of Selenium to support muscle function and the immune system.

Provides antioxidant support for all classes of horses

Normally green grass provides the Vitamin E needs for your horse. However when their diet transitions to high levels of hay or your horse doesn't have access to good pasture, Vitamin E deficiencies can occur.

Once hay is harvested Vitamin E levels begin to degrade, and the longer it is stored the more Vitamin E is lost.

- Vitamin E & Selenium - important for immune system, nerve and muscle function
- Provides antioxidants
- Highly palatable pellet

Add Vitamin E & Selenium Pellets to your horse's diet to help support muscle function and nutritional deficiencies resulting from lack of pasture grass.

SOLUTIONS FOR HEALTH & PERFORMANCE

Vitamin E & Selenium Pellets

Guaranteed Analysis:	Per lb	Per oz
Vitamin E	20,000 IU	1,250 IU
Selenium (Se)	32 mg (71 ppm)	2 mg

Ingredients: Soybean Meal, Dehydrated Alfalfa Meal, Linseed Meal, Vitamin E Supplement, Fish Meal, Selenium Yeast, Corn Distillers Dried Grains with Solubles, Dried Molasses, Dried Whey, Brewer's Dried Yeast, Corn Oil, Mixed Tocopherols (a preservative).

Feeding Directions: Horses – feed at the rate of one ounce per head per day. This will provide 2 mg of Selenium (Se) and 1,250 International Units of Vitamin E per day. Enclosed measuring cup holds one ounce when level full. Caution: Follow label directions – addition of higher levels of this supplement containing Selenium (Se) is not permitted.

Vitamin E & Selenium Pellets are available in:

- 4 lb pail (64 day supply for one horse)
- 12 lb pail (96 day supply for two horses)
- 25 lb pail (100 day supply for four horses)

Recommended Areas of Use:

- When Vitamin E & Selenium levels are deficient
- Performance and endurance horses
- For added muscle support
- No pasture grass or grazing access
- High hay diets
