

Foal Guardian™

Quick Response Equine Health Supplement

Every foal is precious and is born into a world full of unknowns. Taking a proactive approach to provide the support they need to help them excel during the most vulnerable time of their life is key to a healthy start.

Easy to use Foal Guardian Paste is the horse owner's choice to help maintain GI health and provide immune-enhancing effects to raise healthy, active foals.

May be given day one to get foals off to a fast start, or at any time a quick response is needed during the presence of occasional gastric distress.

Foal Guardian Paste provides a quick response to help raise healthy, active foals!

KAUFFMAN'S® Foal Guardian™ Paste is formulated for horses to deliver the broadest combination of eubiotics and other innovative technologies that work quickly & synergistically to help raise healthy foals. Contains these technologies to target multiple key areas important to address challenges during the young foal's life.

- ImmWave® – Bioactive compounds sourced from bovine colostrum to support a healthy immune system.
- Specialized condensed whey proteins delivering peptides formulated specifically for horses.
- Encrypt® – Soluble and insoluble fiber technology containing organic acids that supports the protective mucosal lining of the gut.
- AstaReal® (astaxanthin) – Helps support both the adaptive and innate immune system.
- Dried egg yolk and whole egg proteins
- Microencapsulated probiotics, including Bacillus subtilis.
- Vitamin D and Vitamin B Complex provides immune support
- Essential oils
- Prebiotics-mannan-oligosaccharides (MOS) & fructo-oligosaccharides (FOS)

Incorporate Foal Guardian into your healthy foal protocol on day one for foals experiencing failure of passive transfer, or anytime a quick response is needed to help maintain normal gut health and support a healthy, functioning immune system.

Foal Guardian™
